

Catchit

The System of Ordering for Make-Ready Sheets

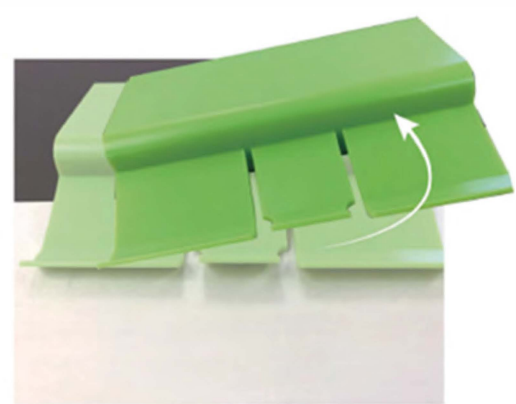

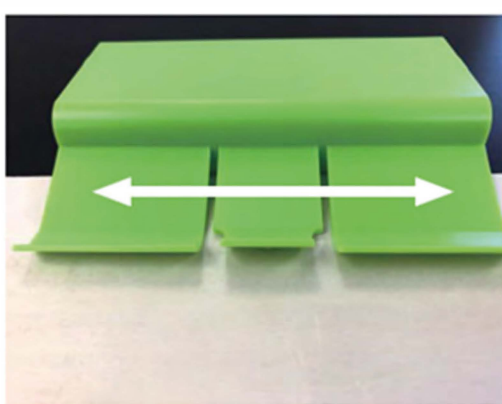

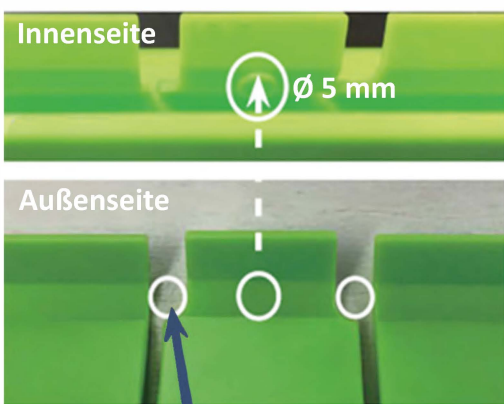

- The die-board is the right place for make-ready sheets
 - quicker handling
 - no damages on the sheets
 - proper storage (5S)
- Flexible clip for all sheet formats
- Easy & quick attachment
- Perfect Hold

1. Place the Catchit with an angle on the dieboard

2. Slide the Catchit into the dieboard

3. Make a dent on the dieboard (Ø 6 mm / Depth 1 mm)

4. Slide up the Catchit to fit the dent
